

HARIPRASAND T

Software Developer (Angular)

015hariprasand2003@gmail.com

+91-7373368847

PROFESSIONAL SUMMARY

Detail-oriented Angular Developer with **2.5 years** of experience in designing, developing, and deploying **responsive Angular applications** (up to Angular 17). Skilled in building **modular components**, **reactive forms**, and integrating **REST APIs**. Experienced in working within **Agile teams** and using **Git-based version control** systems. Strong in debugging, optimization, and collaborating with cross-functional teams. Actively learning **Backend Technologies** to grow as a Full Stack Developer.

SKILLS

- **Front-End :** HTML5, CSS3, JavaScript (ES6+), TypeScript & Angular (Upto V17).
- **Libraries & Frameworks:** Angular Material, PrimeNG, Bootstrap & AG Grid.
- **Version Control:** Git, GitHub & Bitbucket.
- **Project Management:** JIRA & Azure DevOps (VSTS).
- **API Integration:** RESTful APIs.
- **Tools:** Visual Studio Code & Chrome Developer Tools.
- **Methodologies:** Agile (Scrum).

PROFESSIONAL EXPERIENCE

Software Developer (Angular)

TVM Infotech Pvt. Ltd | January 2023 to Present

Duration: 2 Years 5 Months

- Designed and developed scalable UI modules using Angular 15 and above.
- Built reactive forms with dynamic validation for various business workflows and data entry forms.
- Used **AG Grid** for efficient data display with sorting, filtering, and pagination.
- Integrated **REST APIs** for real-time data updates and role-based security.
- Enhanced application **performance and responsiveness**, reducing load time.
- Participated in **Agile sprints**, sprint planning, and daily standups.

PROJECTS

Project Name (1) : FMS (Financial Management System)

Domain: Finance

Description:

A web-based Financial Management System designed to manage and monitor financial activities like budgeting, transactions, approvals and reporting. The system provides role-based dashboards for financial admins, managers and accountants, ensuring real-time visibility into financial data and compliance.

Technologies Used: HTML5, CSS3, Bootstrap, Angular (15), TypeScript, AG Grid, PrimeNg, RESTful API, Git, Jira & Bitbucket.

Key Features:

- Budget Planning & Allocation
- Expense Tracking and Approval Workflow
- Role-Based Dashboards (Admin, Finance Manager, Accountant)
- Transaction History and Audit Logs.
- Advanced Reporting and Data Export

Project Name (2) : EMS (Employee Management System)

Domain: HR & Administration

Description:

A centralized Employee Management System built to handle employee lifecycle activities such as onboarding, attendance, leave management, payroll integration and performance tracking. The application supports multiple roles like HR, Manager and Employee with customized views and features.

Technologies Used: HTML5, CSS3, Bootstrap, Angular (15), TypeScript, RxJS, AG Grid, Angular Material, RESTful API, GIT & Azure DevOps.

Key Features:

- Employee Onboarding and Profile Management
- Leave Request, Approval, and Calendar View
- Attendance Tracking and Monthly Reports
- Role-Based Dashboards (HR, Manager, Employee)

Project Name (3) : DMS (Documents Management System)

Domain: Enterprise Content Management

Description:

A web-based Document Management System that allows users to upload, search, view and manage documents securely. It supports role-based-access. Document categorization, versioning and reporting to streamline document workflows across the organization.

Technologies Used: HTML5, CSS3, Bootstrap, Angular (17), TypeScript, RxJS, Angular Material, RESTful API, Git, Jira & GitHub.

Key Features:

- Document Upload with Metadata Tagging
- Advanced Search by Name, Category, Date, and Tags
- Role-Based Dashboards (Admin, User)

Responsibilities :

- Involved in the complete project life cycle from requirement gathering, design, and development to testing.
- Developed and maintained responsive, user-friendly web applications using Angular 13+ following industry best practices.
- Designed and implemented reusable, modular UI components to improve code reusability and scalability.
- Created dynamic reactive forms with comprehensive validation for seamless data input and error handling.
- Integrated RESTful APIs for efficient data communication between frontend and backend services.
- Implemented role-based access control and route guards to enhance application security.
- Utilized Angular Material components and SCSS for modern, consistent UI and responsive design across devices.
- Applied performance optimization techniques such as lazy loading to improve load time and responsiveness.
- Collaborated closely with backend developers, QA engineers, and business stakeholders to deliver high-quality software solutions. Collaborated with QA to define test cases and fixed.
- Conducted code reviews, debugging, and troubleshooting to maintain code quality and resolve issues promptly.
- Ensured cross-browser compatibility and adherence to accessibility standards for a broad user base.

EDUCATION

Bachelor of Science in Computer Science

KPR College of Arts Science & Research – Coimbatore, Tamil Nadu

Duration: June 2020 to May 2023

CGPA: 7.8

CERTIFICATIONS

- **HTML & CSS – Certification Course for Beginners**, *May 24, 2022*
- **HTML, JavaScript & Bootstrap**, *May 23, 2022*
- **JavaScript for Beginners**, *November 29, 2022*

ACHIEVEMENTS

- Successfully delivered multiple web application projects on time, meeting key business goals and improving customer satisfaction and operational efficiency.
- Recognized for strong teamwork and problem-solving skills, consistently meeting deadlines while collaborating effectively with cross-functional teams..
- Improved form validation and user interface design, leading to better user experience, reduced form errors, and increased data accuracy.
- Optimized application performance, resulting in faster load times and higher user engagement across modules.
- Frequently appreciated for attention to detail and proactive issue resolution, contributing to the successful and timely completion of complex development tasks.

DECLARATION

I hereby declare that the information provided is true and correct to the best of my knowledge.
